

Jonathan Fellus, MD, Advanced NeuroCare, LLC, Neurology and Neurorehabilitation

Get to know Neurologist Dr. Jonathan Fellus, who serves patients in Northern, New Jersey and New York City.

New York City, New York Nov 22, 2021 ([Issuewire.com](https://www.issuewire.com)) - Dr. Jonathan Fellus is a Morristown, New Jersey-based neurologist and clinical researcher with an interest in the pharmacological treatment of cognitive, behavioral, and emotional disorders, especially from traumatic and other types of brain injury. He treats a wide array of conditions such as dementia, movement disorders, headache, chronic pain,

and “Long Covid” through Advanced NeuroCare, LLC. Blending the best of Western and Functional medicine, his practice offers nutraceuticals and neuromodulation techniques such as neuro-feedback as a complement to pharmaceutical approaches to illness and disease. He recently became licensed in NY.

Before embarking on his professional journey, he graduated with his Bachelor of Arts degree in Neurobiology and medical degree from Rutgers’ Robert Wood Johnson Medical School. He then went on to complete his residency in neurology at Pennsylvania Hospital, where he served as Chief Resident. Finally, he completed his fellowship in neurorehabilitation at the University of Maryland Medical Center, Kernan Rehabilitation Hospital.

Prior to opening Advanced NeuroCare in 2012, he served as Director of Rehabilitation at Meadowlands Hospital and Director of Brain Injury Services at the Kessler Institute for Rehabilitation.

Moreover, he spent a combined nine years as a Scientific Advisor and Chief Medical Officer with the International Brain Research Foundation and co-founded the Moulay Ali Institute for Rehabilitation in Marrakech, Morocco, in 2008. In addition to those not-for-profits, he also worked with The Center for Neurologic Studies in San Diego, CA. and The Kurzweil Accelerating Intelligence Network. Dr. Fellus also performs forensic evaluations for medico-legal purposes and has appeared as a media expert on TV, radio, and print outlets.

Neurology is a branch of medicine dealing with disorders of the nervous system. Neurologists diagnose and treat disorders that affect the brain, spinal cord, nerves, and muscles. They examine one’s mental and physical status, conduct medical tests and scans, and evaluate the results to diagnose and treat the patient.

Dr. Fellus also enjoys family time, cooking, travel, hiking, and wild foraging in his spare time.
