

Kristo Blanc of Demonslayer Records Is Ready To Take His Talents Mainstream

Los Angeles, California Nov 9, 2021 ([IssueWire.com](https://www.issuewire.com)) - Kristo Blanc is an on the rise recording artist with Demonslayer Records. He was born and raised in Oklahoma City, Oklahoma. Kristo is a key player in the empire of Demonslayer Records. Each individual in the label has their own set of abilities and strengths that they bring to the table. Growing up Kristo started to tell stories and wrote music with his friends. He was also a young performer who acted in plays and sang in the choir. He has always had a fond interest in performing and his creative ability was always something he saw as more than just a hobby.

Recently he has released a new music video and singles titled “the 4TH QUARTER”. The track has been creating a nice buzz as it pays homage to the Native American culture. This year he has also hit his first 100,000 streams with his EP titled “ KOBRA AURA 2020”. Not to mention he started his first business and founded Demonslayer Records. He has been busy creating success for his team and this has led to them securing a distribution deal with Symphonic. His subject matter and psychedelic rhythms are quite amazing to witness. His sounds are similar to Prince and Kanye West with a dab of Travis Scott and Toro y Moi.

This year he is working on his first solo album. Until that is set to release he will be focused on delivering singles. Demonslayer Records will continue to spotlight artist development, label services, management, and music publishing with *Kobra Aura Music*. Their goal is to release their first label EP in early 2022 and highlight the newest affiliates, Mercury and Jack Moon.
