West Yorkshire, United Kingdom Nov 15, 2021 ([IssueWire.com](https://www.issuewire.com)) - Cryptocurrencies have been gaining popularity in recent years, and more people are becoming interested in them. With the introduction of blockchain technology, an era of cryptocurrencies has been created. Cryptocurrencies

have both positive and negative sides that need to be considered before investing in them.

Live Crypto Party (LCP) Token is a Binance Smart Chain token, it is used to host cryptocurrency events. It is the world's first cryptocurrency event token. With Live Crypto Party Token, you can purchase tickets, drinks, gifts, and other tokens at events all over the world to fulfill your crypto desires!

LCP token was created by the Live Crypto Party team which aims to provide infrastructure for crypto education, crypto popularity, and positivity, events, crypto projects that will foster connection amongst communities.

The Live Crypto Party (LCP™) Platform is a blockchain-powered proprietary party-to-earn global crypto event platform that rewards users or guests in Cryptocurrency and BEP20 tokens for having fun online and offline.

Merchants, service providers, and community members can use tokens like BNB and BUSD as a decentralized payment method to purchase their tickets and earn free LCP tokens to Vote and Add their favourite cryptocurrency project on the platform. The Crypto with the most votes is named the currency of the day and is promoted on the platform.

Free LCP tokens earned during this event can be used to redeem products and services on the platform.

During the party, LCP holders can sell the cryptocurrency of the day back to us on the Platform for an increased profit of up to 80%.

The presale started on 16th October 2021 where they offered 1 billion LCP tokens at 0.02 BNB for 1000 LCP which is approximately \$0.01 per token following the current market price.

The Live Crypto Party token is becoming more profitable, attracting a massive number of investors in the cryptocurrency market, including Bitcoin (BTC), Ethereum (ETH), Binance Coin (BNB), Tether (USDT), Cardano (ADA), Solana (SOL), XRP (XRP), Polkadot (DOT), Shiba Inu (SHIB), Dogecoin (DOGE) community members who bought over a million of the LCP tokens as of the time of this release.

Let's take a look at some of the most popular features of the Live Crypto Party (LCP) token:

LCP token early holders are people that invested in the Live Crypto Party Presale, which is currently live. Anyone can participate in the presale at the current rate of 0.00002 BNB per 1 (Approximately \$0.01) with a minimum buy of 0.01 BNB and a maximum buy of 1 BNB per address. LCP tokens will be listed on decentralized exchanges like PancakeSwap after the presale, followed by several major centralized exchanges.

Members that bought LCP worth **0.5 to 1 BNB** will automatically qualify for the LUCKY SPIN to win fantastic items.

During the Presale, LCP Holders earn 20% in referral bonus when someone buys some pieces of LCP tokens using their link.
