Bengaluru, Karnataka Nov 22, 2021 ([Issuewire.com](https://www.issuewire.com)) - Namma Blockchain is a community event that takes place at Social Indiranagar Bangalore every 2nd and 4th Friday of the month.

The community has brought in Crypto Curiousist, Crypto Enthusiasts, and Crypto Investors under one roof.

We discuss new and upcoming blockchain projects and NFTs and tokenomics. Moreover, we share experiences of our journeys into Crypto and Blockchain, but at the core of it all, we intend to educate people that Crypto Blockchain is not a bubble or a scam.

The entire financial sector of the country is slowly changing its portfolio. The traditional portfolios of the Big 4 companies are predominant of Hedge Funds, Company Shares, and Real Estates. The pendulum is slowly swinging towards the Blockchain sector which is now at 5%. The analysts are not yet baffled, however, they are waking up to the fact that the tides are changing and they don't know what to make of it. However, Namma Blockchain - Capitaleap's Friday's community knows what to do with it and that is to educate sensibly all common people on how exactly Blockchain works and how to avoid scams (that are not us)

Blockchain is not magic money that makes you a millionaire overnight. When it's was introduced way back in 2009, people were very hesitant to believe in it and to act on it. Come 2019, the same people wished — had they listened, had they acted in it, had they had the patience to learn and grow and to be a part of the community.

This is where the Namma Blockchain community comes in as a fail-safe family to talk sense to those people who are curious and wants to learn more. If or not they will enter the Blockchain space is secondary.

So do come along and join us, we will be there as Serpas, guiding you and helping you to reach the highest level of your financial life. Mt. Everest is waiting.
