

Professionals clubbed up to Integrate Ayurveda with Speed of Technology- Launched a 360-degree platform

We live in one of the most developed eras of human existence with easy access to luxury and comfort in our lives. What is missing, however, is Wellness.

Lucknow, Uttar Pradesh Nov 16, 2021 ([Issuewire.com](https://www.issuewire.com)) - Lethargy, Stress, Chronic illnesses, and lifestyle diseases are quite widespread and engulfing our happiness. Dealing with situations like pandemics only worsens our situation. It is true that in the absence of Wellness, all technological advancements and luxuries of life are meaningless. In today's time, we need a healthcare system not only to save us from sickness but also, and more importantly to bring in Wellness and in turn a sense of Wholeness in our lives.

Ayurveda can play a pivotal role because it is not just a medical science but a path to lead a healthy life without illness. Ayurveda encompasses not just a healthy body but a healthy soul and thus this science reflect upon Wholeness and not just wellness.

This vision of promoting Wellness & Wholeness laid the foundation of SUSHAIN (www.sushainclinic.com). ***SU + SHAIN = Good + Doctor.***

SUSHAIN is a platform built 360-degree Ayurvedic solution for healthcare needs. The vision of SUSHAIN resonated with a large no. of qualified and experienced practitioners of Ayurveda who graciously agreed to come on board in an endeavor to promote '***Goodness of Life***'.

Sushainclinic.com is an end-to-end platform where you can:

1. Consult an Ayurvedic doctor ***virtually from the comfort of your home***. This not only helps reduce the pain and effort of patients to reach the doctor but also helps to connect the best doctors sitting in another part of the country/world.
2. Locate & consult the best ***Ayurvedic doctors of your town face to face in clinics***.

Buy **effective and certified Ayurvedic medicines** which are delivered to your doorstep. Not only that your prescription becomes your cart, just pay and get the prescribed medicines delivered to your home.

3. Have a complete digital record **of your entire consultation history** including prescriptions, reports, etc.

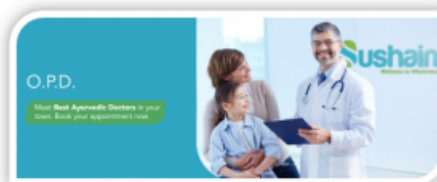

If you feel that alternative healing methods should be given a chance, do visit our Facebook page and experience us at www.sushainclinic.com. It would be great if you could promote our initiative among your friends and family.

4. Book Panchkarma therapies in your city.

We would request you to at least come and experience us on our website sushainclinic.com and FB page <https://www.facebook.com/sushainclinic>. There are high chances that you would come out as a changed person and a Believer.

Almost all of us would have heard of Ayurveda. Of course, this is our ancient system of medicines and healing. While Allopath has much wider acceptability, Ayurveda evokes divergent reactions. There are many who are skeptical of the efficacy of Ayurveda to heal people; while there are others who vehemently advocate its usage. However, we found that there was **widespread misinformation** and **lack of knowledge even among the most vociferous supporter of Ayurveda**. Probably one of the reasons why Ayurveda is yet to get it's deserved standing amongst the various streams of medicines.

These last one and half years of the pandemic-ridden world have forced us to relook at our priorities. Many of us had forgotten to give adequate prominence to our relationships and more importantly to our health in this fast-paced world. Covid 19 brought this world to a halt and for a moment, we realized what is important in our lives. www.sushainclinic.com is an attempt to integrate the power of Ayurveda with the speed of technology and empower people with wellness and wholeness.
