

Rubiscape's Data Science Platform receives an award at CII's 7th International Conference on Intellectual Property Right

Pune, Maharashtra Nov 30, 2021 (Issuewire.com) - The Confederation of Indian Industry (CII) hosted a 7th International Conference on Intellectual Property Rights (IPR), for its contributions in the field of Intellectual Property Rights (IPR) that witnessed some outstanding innovations from the diverse fields by the large enterprises as well as start-ups from all over the country. A Pune-based technology product start-up - Rubiscape was recognised with a Special Appreciation Award for its innovative platform for Data Science and Artificial Intelligence.

Addressing in a [keynote Padma Vibhushan Dr. Raghunath Mashelkar](#), former Director-General of the Council of Scientific and Industrial Research and the Chair of the eminent jury for the All-IP Awards 2021, said "India wants to be at the forefront as a leading innovation nation and IP plays a critical role in innovation management, from idea to impact and mind to market. Innovation is an enabler of academia and industry as a connection between The Saraswati and The Laxmi." He further added, "I am proud to see some outstanding innovators working closely with Academia, Industry and the Government as eco-

system towards an Atmanirbhar Bharat initiative”

Dr. Prashant Pansare, Founder & CEO of Rubiscape said, “We are delighted with this honor and are thankful to WIPO and CII for this recognition. At Rubiscape, we started with a simple goal – to help people and enterprises gain the true worth of their data, as data-democratization is at the core of successful digital transformations. We dedicate this award to our eco-system partners from industry, academia, and our team who have helped us in this journey”.

The Conference was organised by the Confederation of Indian Industries (CII) in joint co-operation with the World Intellectual Property Organisation (WIPO) and Intellectual Property (IP) India. The theme of the Conference was ‘Maximization of IPR for Growth and Development’. IP issues would be crucial in key domains like Industry 4.0, Smart manufacturing, and the emergence of India as an alternate supply chain destination.

Dr. Daren Tang Director-General of the World Intellectual Property Organization (WIPO) said, “IPR is set to be a predominant driver for the growth of trade, technology, science along with the overall economy of India and partners like CII have an important role to play in promoting Indian start-ups, entrepreneurs and industry on how they can use their ideas to the market”.

CII Industrial Intellectual Property Awards aim at the recognition and celebration of enterprises that have embraced IP generation and protection to fuel their business and economic growth. The Confederation of Indian Industry (CII) has been working towards strengthening the Intellectual Property (IP) eco-system in the country.
