MR. GEOVON MARTIN**
FOUNDER OF PROGRESSING BODIES CORP,

**NOV. 23RD AT 1:30PM EST
DREAM CHASERS RADIO**

Atlanta, Georgia Nov 16, 2021 ([Issuewire.com](https://www.issuewire.com)) - Founder Of Progressing Bodies Corp, Geovon Martin, Scheduled For Upcoming Interview With Dream Chaser Radio To Discuss New Herbal Product

Mr. Martin is expected to highlight the benefits of the company's Elderberry XL Plus Herbal Blend, and also share stories from his customers as well as his journey into the world of wellness products

Mr. Geovon Martin, the founder of Progressing Bodies Corp, is scheduled for an interview with Dream Chaser Radio to discuss the company's new herbal product which it presents as a [natural immune system booster](#). The interview is expected to highlight the benefits of the Elderberry XL Plus Herbal Blend and also share stories from his customers, detailing their experiences with the herbal wellness product, and how it has impacted their lives.

The Elderberry XL Plus Herbal Blend is described as an all-natural antiviral formula that provides year-round immune system support to aid in reinforcing the body's natural defenses. It contains 12 natural immune system support ingredients, black elderberry extract, and is blended with Echinacea and Astaxanthin - two powerful plants packed with antioxidants.

In addition to boosting immunity and protecting against free radicals, Progressing Bodies Corp says the herbal blend serves as an antiviral, antibacterial, anti-parasitic, antifungal, and [anti-inflammatory formula](#).

It is touted as being 6000 times stronger than vitamin C and 800 times stronger than CoQ10, contains more Zinc than 500 Almonds, and is great in helping to reduce joints and muscle pain, as much as it improves mood, focus, and memory.

[Progressing Bodies Corp](#) insists that it understands the importance of living a well-balanced life by incorporating healthy eating choices, regular exercise, and daily supplementation. It promises that all its products are designed with all-natural ingredients and adds that they contain no fillers or binders.

During the interview, Mr. Martin is also expected to share details on his journey into the world of natural wellness products, as well as the mission and vision of the company.

In the meantime, Progressing Bodies reiterates its dedication to making a difference for future generations by providing them with the means to have a healthy sustained life.

[The Elderberry XL Plus](#) has continued to receive rave reviews from previous customers who describe their experience using the product as extraordinary.

“After receiving a positive COVID test on Wednesday I immediately began taking Elderberry XL. My initial symptom was a sore throat which rapidly moved to a runny nose and a slight cough. On day two of the virus, I had some wheezing along with a loss of taste and smell. Glad I had this product on hand because I went from taking only one a day to six a day. Not only did all symptoms decrease by day three but I am fully back to normal.” - Niki Tanks.

“I have lower back issues and was seeing a chiropractor every week. I started taking the Elderberry XL Plus and the inflammation in my lower back started to go away, to the point where I don't go to my

chiropractor anymore. There are a lot of products out there that claim to work and help the immune system but I know this product really works. I feel better every day and I'm back in the gym working out thanks to Elderberry XL Plus!" - Jerry T.
