

YourWebPro Web Solutions announces new review tool

Reviews are more important to a business than ever

Schaumburg, Illinois Nov 23, 2021 ([IssueWire.com](https://www.issuewire.com)) - YourWebPro announces their newly improved review tool.

The **YourWebPro Review tool** is the perfect addition to any contractor looking to increase their reviews.

Reviews are displayed on a single page of a contractor's website making it easy for customers to leave or read reviews.

Easy-to-navigate icons like "Thumbs up or Thumbs Down" assist customers with leaving reviews on preferred review portals like Google, Facebook, and more.

The reviews are then **automatically** installed on a contractor's website **in real-time**.

The contractor receives an email notification for all reviews recorded as well as a newly upgraded interface for responding to reviews.

A recent quote from Gary Spies, Owner/CEO of YourWebPro, "Our research shows, the easier contractors make the experience, the more reviews they will receive. We make it easy. We recommend asking for a review on the job site. This seriously improves conversion. We also offer post-contact options via text or email in case the homeowner was not present. "

The YourWebPro Review Tool is \$29.95 a month. Less than \$1 a day.

For more information on their review tool services, visit <https://yourwebpro.com/Review-Tool>
