

A New World: Crypto Hodlers NFT Launch Original Comics

Miami, Florida Dec 4, 2021 ([Issuewire.com](https://www.issuewire.com)) - The highly anticipated Crypto Hodlers Comic is launching on the 8th of December 2021 and the team is celebrating its launch by rewarding all existing NFT token holders with the first edition of the comic via an airdrop.

The Crypto Hodlers Comic will be the first in-depth introduction into the rich universe inhabited by the Hodlers, further expanding the Crypto Hodlers universe and setting the foundations for more things to come.

The first issue of the comic revolves around a series of mysterious deaths within the sprawling city of Famas - a city powered by the magical and powerful mineral Ethereum. Flavian, a renowned and ambitious private detective, has reluctantly returned to Famas on the behest of Samon - the infamous ex-mayor of Famas - to help with the investigation. In this unnerving tale full of unexpected twists and turns, prepare to be surprised because nothing is what it seems.

The Crypto Hodlers NFT was originally launched in July 2021 - widely considered to be one of the first human-based NFT PFP projects that launched at that time. In addition to gaining ownership of a unique piece of art, owners also receive full IP rights to each of the characters they own.

The comics reveal the true inspiration behind the art of the Crypto Hodlers and provide a backstory and a colourful narrative to the whole collection, enabling existing holders to benefit and in the future, monetize their IP in a meaningful way. The comics just scratches the surface of the expansive Crypto Hodlers universe - this is only the beginning.
