London, United Kingdom Dec 6, 2021 (Issuewire.com) - Tuko Super App is a righteous and honorable initiative started by Bishop Climate Wiseman in London and Edinburgh, who had a calling to help those in need whose lives and livelihoods were ravaged by the Covid-19 induced Pandemic! It's not just the humans who were trampled underfoot by this highly-contagious airborne virus but even the Global Financial Economy felt a crushing blow to its gut! Millions had already succumbed to this deadly virus and the ones alive were living in a constant state of fear and anxiety.

LENDING A HELPING HAND

Being the Bishop of The Kingdom Church of London himself, Bishop Climate was emotionally comforting every soul that sought peace! He was assuaging their anxiety by reminding them that they are all the children of the Almighty and that Providence loves all of his children equally and dearly. He'd tell them that the Almighty is simply testing their patience and this too shall pass.

THE GRAVITY OF THE CURRENT ONGOING CRISIS

The horror and pain of seeing your loved ones die before your own eyes while you couldn't do anything about it send chill shivers down the spine of the surviving members of the family who sail through life with barbaric unease and Neurosis! This fear of contracting the Covid-19 virus had then transformed into a Phobia and now people were first hesitant and then apprehensive about stepping out to buy bare essentials to survive on. Their angst was driving them crazy by forcing them to stay indoors. They stopped going out for morning walks, or to buy Farm Fresh Vegetables and Fruits from the nearby Farmers' Market on the way back from Office! Some employees faced the brunt of the Pandemic with companies downsizing big time and the remaining employees were asked to work from home!

PEOPLE HAD JITTERS EVEN STEPPING OUT OF THEIR BALCONIES TO BREATHE IN FRESH AIR

It is then Dr.Climate had the wit and the intuition that the true Upliftment of the society needs a concrete solution alongside the spiritual and compassionate support he was already providing them with.

This is when Dr. Climate had an insight that guided him to develop a multi-functional platform that has now become a colossal success and the new eye candy of the town- Tuko Super App. This platform ensured livelihood and a stable source of income to thousands and millions of distressed fellow citizens!

CLIMATE'S TUKO SUPER APP IS ABOUT GIVING A RAY OF HOPE, A SECOND CHANCE!
