

Charity fundraising in nano cryptocurrency launched by a local bar

Sending nano to the charity donation address allows you to control the Christmas tree lights in the bar in real-time!

London, United Kingdom Dec 8, 2021 ([IssueWire.com](https://www.issuewire.com)) - An innovative way to receive online donations is explored by a British charity, [Simon on the Streets](#) - an independent non-profit project in West Yorkshire helping the homeless has arrived for a 2nd Christmas running organized and hosted by the [Pixel Bar](#) in Leeds.

The Christmas Tree lights are controlled by sending nano to the donation address. Depending on the amount, a different animation can be triggered. All money raised by the tree goes to a local charity Simon on the Streets.

Join in the fun and watch the [live stream](#) while drinking on the other side of the world. Experience the instant, feeless and global nano network.

About Simon on the Streets

The charity provides practical and emotional support to the homeless directly on the streets, on an outreach basis.

About Nano

Nano is sustainable digital money with instant transactions and zero fees over a secure, decentralized network. The Nano protocol is developed to be accessible and lightweight, with a focus on removing inefficiencies present in existing cryptocurrencies, making it ideal for everyday transactions.

The [Nano Foundation](#) is a non-profit organization with the purpose of developing and maintaining the Nano protocol while supporting the Nano ecosystem.
