

Christmas Hoverboard Deals 2021: Save up to 50% NOW

Great Hoverboard Christmas Deals

West Midlands, United Kingdom Dec 7, 2021 ([Issuewire.com](https://www.issuewire.com)) - Christmas 2021 is just a few days away, and we're already seeing tons of huge sales drop. This year Christmas will fall on November 26th. Typically hoverboards are expensive, costing several hundred pounds or more. These self-balancing scooters are a favorite among gadget lovers, and you can expect great Christmas deals. With Christmas sales, you're likely to find price reductions in November, and we're anticipating price reductions to start around 2 weeks before the big day. For us, you'll be able to get up to 50% off the hoverboard of your choice.

What to expect from [Christmas hoverboard deals](#) in 2021

Take advantage of our Christmas 2021 to bag a bargain, avoid stock issues and delivery delays if you're doing some early Christmas shopping. For this year, Hoverboards.co.uk have decided to bring reduced prices for some of our best selling boards.

Vanguard White £199.99 from [Hoverboards.co.uk](https://www.hoverboards.co.uk) save £89 – buy here

This model is one of our 6.5-inch models which is the smallest wheel size that we have. This model is mainly designed for flat surfaces and flat grass. The main reason for this is that if there are rougher terrain types it would struggle to operate due to the wheel size. The model itself is very popular and has fantastic feedback from all of our customers. We even had this model reviewed by the tech experts themselves at TechAdvisor which gives you an indication of the Hoverboard itself. Fly Plus Blue Urban Camo £199.99 from [Hoverboards.co.uk](https://www.hoverboards.co.uk) save £99 – buy here

-This is another one of our 6.5-inch models which we have on sale this year. This Hoverboard itself is another fantastic Hoverboard and is extremely popular. This [Hoverboard](#) is exactly the same as the

other 6.5-inch Hoverboard we sell which is the Vanguard. The only difference is the colour designs of them. The Fly Plus models come in various different colors and patterns which is the only difference between this model and the Vanguard. We also had TechAdvisor look at this model too which is you can see the review for here: <https://www.techadvisor.com/test-centre/gadget/best-hoverboards-3627914/>

Fly Plus White Camo £199.99 from Hoverboards.co.uk save £99 – buy here

-Another one of our 6.5-inch models is this model. It is exactly the same as the above model just in a different colour design. These models are very popular for the newer users and younger users of Hoverboards and mainly anyone that is just going to use them on flat surfaces. The minimum weight requirement to use this hoverboard is 25KG and the maximum is approximately 100KG.

Fly Plus with Classic Kart, £229.99 from Hoverboards.co.uk, save £156 – buy here

Again, this is our 6.5-inch model which comes as a bundle deal with a kart. The kart is intended for a different way in which you can use the Hoverboard and adds a whole new dynamic to the hoverboard with a completely different way in which the Hoverboard can be used. Once the kart has been constructed it is a simple 30-second job to attach and detach. By using a kart it also is a lot safer as you cannot really fall off the [hoverkart](#) and it is still really close to the floor even if you did. The kart attachment is a fantastic element to add to the Hoverboard and also it may be a good way to split a birthday and Christmas present into one.
