Noida, Uttar Pradesh Dec 17, 2021 ([IssueWire.com](https://www.issuewire.com)) - Cigati MSG to PDF is a leading platform that provides prompt solutions to recover, repair, migrate, export, and backup your emails and database. So, it's a pleasure that Cigati has launched the latest and excellent MSG to PDF Converter for those users who want to convert MSG to PDF with attachments.

This MSG to PDF Converter free has the ability to convert from PST to PDF and other file formats like PST, EML, EMLX, HTML, MBOX, etc. It also removes duplicate or repeated MSG files at the time of conversion so that users get precise solutions. Furthermore helps to batch conversion of MSG to PDF with attachments in a few clicks.

Astounding Features of the Cigati MSG to PDF Converter Tool

- Along with the file format, this tool also converts MSG files into various email clients like Gmail, Yahoo Mail, Office 365, iCloud, GoDaddy Email, etc.
- It supports the conversion of MSG file into document & image file formats like PDF, PNG, etc.
- Users can also choose an option to migrate MSG emails with no attachments.
- It offers a smooth work experience with an intuitive graphical user interface.
- It is produced with the function of renaming backup folders with the Custom Folder option.
- To convert MSG to PDF online free use its free demo version that enables the conversion of 50 MSG emails.

Mrs. Sonika Rawat, Director of Product Development, Cigati solutions Software, quoted the following lines on the occasion of the launching of this tool :

This [MSG to PDF Converter](#) tool is certified as one of the best-selling products. It is known for its superior performance which is why many experienced users recommended this tool. We will always try to provide reliable service to our users. Users don't need to worry here as this tool contains user data that needs to be protected. In terms of compatibility, it works just fine with all versions of Windows. Hence, we eagerly await users' feedback on this software for improvement if they wish to change.

Software availability:

I hope you will not have any doubt after knowing about this tool. If any users still have any doubts, use its free version before purchasing it. In its free version, you can test the processing of the tool to see how smoothly this tool works. The only difference between the free version and the paid version is that the free version only converts 50 emails and paid version converts unlimited emails at a time.
