

Dr. Sam Wise, DDS, MOM, MSc, MDS provides preventive to restorative to cosmetic dentistry to Longview WA residents

Dr. Sam Wise has three master's degrees; the American board of Oral facial pain in 2018 and the Germany board of dental Implant in 2009, has two patents in dentistry, and has over 20 years of experience in Germany, the Middle East and the USA.

Longview, Washington Dec 13, 2021 (IssueWire.com) - Welcome to our lovely dental office! Our practice has been serving the community by providing excellent dental care in Longview, Washington, since 1997. In addition to offering general and family dentistry, our dentist and team specialized in Oral Facial Pain, TMJ, and Sleep apnea. Prof. SAM Wise has two more degrees from Germany in Oral Surgery and Dental Implant. He passed the American Board of **Oral Facial Pain** and the German Board of **Dental Implant**.

The skills and knowledge cultivated by Dr. Sam Wise as an orofacial specialist allow him to design conservative, personalized treatment plans created with your dental needs and goals in mind. Our objective as a dental office is to preserve the natural integrity of your teeth for a long-lasting, healthy smile while also providing compassionate and honest care for our patients. We facilitate this by employing state-of-the-art dental technology and utilizing smile analysis to create customized solutions for our patients. Our friendly and professional team is delighted to get to know you and your family, and we look forward to seeing you here at Lower Columbia Oral Health!

Dr. Sam Wise has three master's degrees; the American Board of Oral facial pain in 2018 and the Germany board of dental Implant in 2009, has two patents in dentistry and has over 20 years of experience in Germany, the Middle East, and the USA.

Dr. Wise is an award-winning dentist with extensive education and experience. His priority is to provide each of his patients

with a healthy and beautiful smile. He has master's degrees in oral biology, implantation and dental surgery, and oral medicine and implantation along with a Doctor of Dental Surgery degree (DDS) and a two-year clinical residency at Rutgers School of Dental Medicine.

Dr. Wise chose the profession of dentistry because it combines art, science, and medicine. He shares that "the joy of life is to be free, and you can only be creative if you are free." Dentistry allows him to be both. He loves his field because he understands that once you improve a patient's smile, you improve their confidence and change their life for the better. There is nothing more rewarding to Dr. Wise!

Known for his kind manner and gentle touch, patients are comfortable trusting Dr. Wise with their care. His expertise extends to a wide variety of procedures and specialties, including:

- Dental implants (over 5,000 placements)
- All types of Specialize Neuropathology from the USA and got other two degrees from Germany in ***oral surgery and dental implants***
- Cosmetic dentistry, including complete smile makeovers
- Prosthetics, including full-mouth rehabilitation
- Endodontics (root canal treatment)
- Periodontics
- Orthodontics
- TMD and orofacial pain

When he is not working, Dr. Wise enjoys spending his time with his wife and four sons. He enjoys reading, playing ping pong, chess and swimming.
