ONLY FIVE PIECES HAVE BEEN MINTED AND AVAILABLE FOR SALE

Alma Tomasi confirmed in the statement that she is starting a platform that will “release NFTs in regular intervals.”

An NFT is a piece of data verifying that you have ownership of a digital item, such as a piece of artwork. The items can also include a video clip, a tweet, and more.

NFTs are recorded using blockchain technology. A blockchain is a decentralized, digital ledger that tracks transactions of items and assets.

Some of the most high-profile NFTs include Twitter CEO Jack Dorsey's digital version of his first tweet, which sold as an NFT for more than \$2.9 million in March, and the viral 2007 video "Charlie Bit My Finger" fetched more than \$760,000 in May. Earlier this week, a previously unheard demo track Whitney Houston recorded at age 17, sold as an NFT for \$999,999.
