

GameFi Project NEXTYPE is officially landed on Huobi

With the exclusive NFT authorized of Hanazawa Kana, NEXTYPE is meeting the significant progress.

New York City, New York Dec 28, 2021 ([Issuewire.com](https://www.issuewire.com)) - December 24, NEXTYPE, the world's leading integrated blockchain game distribution platform, announced that its platform token NT is listed on the world-renowned cryptocurrency trading platform, Huobi, with a series of reward events worth millions of dollars. Meanwhile, NEXTYPE's latest panoramic plan has been released, focusing on infrastructures of blockchain game distribution platform, high-quality blockchain game distribution, and native GameFi and NFTFi product incubation.

It is shown that NEXTYPE is committed to creating an integrated blockchain game distribution platform, providing more high-quality blockchain games, and bringing players an enjoyable experience of gaining revenue during the game. Based on the vision, NEXTYPE aims to inspire the infinite possibilities of blockchain games to serve players from all over the world.

As the platform token of NEXTYPE, the total supply of NT is 1 billion and total circulation is 100 million. Huobi Global is the first head exchange to launch NT. The market shows that the ATH is over 100% within 5 minutes after trading started.

Moreover, NEXTYPE announced that it has signed an Exclusive NFT Authorization Agreement with Hanazawa Kana, a well-known voice actress in Japan and worldwide. NEXTYPE will exclusively issue, sell and trade the 108 new series of officially authorized NFTs by Hanazawa Kana, and all NFTs will also be empowered by the game benefits launched by NEXTYPE. The first batch of Hanazawa Kana NFT will be officially released in the near future with a total value expected to exceed one million dollars.

In terms of development planning, NEXTYPE has carried out a brand strategy upgrade and has released its latest panoramic plan. As the world's leading blockchain game distribution platform, NEXTYPE always focuses on users' flow and activity on the platform, and the current players have exceeded 300,000.

NEXTYPE insists that economic systems design is the key part in product designing, striving to find a more ideal matching from the gameplay and economic system. The first game MiningTycoon launched by NEXTYPE had ranked first in the DappRadar New Game section. It is disclosed that 2 self-developed games NEO FANTASY, Maiden Des Dragon, and several cooperative games will also be launched in the near future. In 2022, NEXTYPE plans to complete the infrastructures of the entire distribution platform, product development, and features updates. It is believed that 2022 will be the year of NEXTYPE to have a significant process.

It is worth mentioning that NEXTYPE is launching IGO in MiningTycoon, a game-based initial token offering channel for blockchain startups. Aim to all community users, NEXTYPE conducts initial offerings of cooperative project tokens to NT holders, and launch special IGO mining pools in Mining Tycoon, so that NT holders can obtain the initial token shares of the cooperative project in a low-cost way, and make a cost-controlled and effective investment, as well as having the opportunity to participate in the more diversified joint events.

In general, the application scenarios and market demands targeted by NEXTYPE are clear, with great possibilities and potential for future commercial promotion; the tokenomics model is clear with reasonable allocation. Most tokens will be used for future ecological construction and community development, while the unlocking rules of tokens are transparent. What the future value of NEXTYPE will be? Let's wait and see.
