GetLoadz App OVERVIEW

GetLoadz India's first IT-enabled application which is an open platform for truck transportation & logistics. You can post your loads, attach your trucks, book trucks online, and bid on truck loads. This is an open platform in the online transportation and Logistics marketplace. The best place to find a network of truck owners, shippers, transporters, and Consignors. It is going to be one point solution for truck transportation. **GetLoadz** helps you get the enquires on your truck & loads. We bring you the best solution on our every update.

The screenshot displays the GetLoadz app interface. On the left is the login screen with the 'Welcome To Getloadz' message, a language selector set to 'English', and a field for a 4-digit OTP sent via SMS. Below this is a mobile number input field with a dropdown for country code (+91) and a 'GET OTP' button. On the right are two side-by-side forms: 'Add new Truck' and 'Add new load'. The 'Add new Truck' form includes fields for Loading Points, Unloading Points, Current City, Truck Type (with a dropdown), Capacity (with a 'TONS' unit indicator), and Truck Number. It also has an 'Upload rc Document' button. The 'Add new load' form includes fields for From, To, Truck type (with a dropdown), Enter Material, Enter Price, Enter Quantity (with a 'TONS' unit indicator), and Expired at.
