

GS Caltex India: The leading Supplier of Lubricants

GS Caltex is a well-reputed supplier of lubricants all over the world. GS Caltex India deals with the high quality of lubricants manufactured in-house along with imported from their refineries in South Korea, thereby serving their clients.

Mumbai, Maharashtra Dec 27, 2021 ([Issuewire.com](https://www.issuewire.com)) - (<https://www.gscaltexindia.com/>) GS Caltex was founded in the year 1967 as a joint-venture headquarters in South Korea. Since its inception, GS Caltex has made a name for itself in energy industries through its manufacturing and supply of top-quality lubricants such as **synthetic hydraulic oil**. The growth of GS Caltex is because of their continuous investment in research and development and innovation that has made it possible for them to provide their customers with the best quality products in the right manner.

GS Caltex made its way into the Indian market in the year 2010 by incorporation of GS Caltex India as a 100 percent subsidiary of the parent company. GS Caltex India today provides high-quality lubricants to their clients. GS Caltex India has become a trusted and reliable partner for various businesses such as Volvo constructions, Kohler, Indus Towers, and many more. GS Caltex India warehouses are present in the key locations of the country, making them a leader in the Indian market.

Today GS Caltex has the best position in the businesses of petroleum, petrochemical, and lubricants. GS Caltex has diversified sourcing and thereby imports different types of crude oil from 30 countries, allowing them to have a stable supply of crude oil. GS Caltex, with its well-equipped oil refineries and the best production facilities, produces the premium quality of petroleum products. GS Caltex is indeed the best in the market and is rightly said to be the reliable and trusted [hydraulic oil supplier in India](#).

GS Caltex is also the most preferred name for automotive and industrial lubricants. This is because of the eco-friendly base oil of GS Caltex that meets the standards and requirements of the above-mentioned industries. GS Caltex is indeed setting the bars high for base oil quality and subsequent lubricants, thereby making them a leader in the market. Apart from this, GS Caltex is also known as the best producer of petrochemicals in the world. Various industries such as construction, electronics, etc., use GS Caltex-produced petrochemicals as the core material that eliminates the drawbacks of natural material.

About the Company: GS Caltex is a well-reputed supplier of lubricants all over the world. GS Caltex India deals with the high quality of lubricants manufactured in-house along with imported from their refineries in South Korea, thereby serving their clients' needs efficiently and effectively. Various big names are the customers of GS Caltex because of the best quality finished lubricants. This has made the leader in this market. GS Caltex in India enjoys a dominant position in the market as the company warehouses are present in the key locations that allow them to serve the different needs of their clients.
