kolkata, West bengal Dec 27, 2021 (IssueWire.com) - Institute Of International Teachers Training Is A Government Of India Registered Training Institute With ISO 9001:2015 Certification. As A Leading Institute, We Offer Courses In Primary, Pre-Primary, Montessori, And Nursery Teachers Training. To Improve Communications Among People In The Professional Field And Outside It, We Have Started The Communicative English Course Recently.

At IITT, we provide the best quality education through our experienced trainers who are committed to producing the best teachers for young minds. Following the global model of teachers' training, we cater to innovative training procedures through which we equip our students with the knowledge to educate students at any school across the world.

We believe that discipline and professionalism is the key to producing a good teacher. Keeping this in mind we have developed a learning-oriented environment. The institute is built over a strong infrastructure to guide students in completing their courses. IITT provides courses in Online, Distance, and Physical classroom modes.

Our Goal

Our goal at the Institute of International Teachers Training is to educate candidates wanting to become primary or pre-primary teachers with the help of Online, Distance, and Class-Room programs and incorporating contemporary teaching techniques and methods over our courses. We at the Institute of International Teachers Training wish to produce commendable teachers devoted to teaching young learners from various backgrounds at the Primary, Pre-primary, Montessori, and Nursery levels.
