

Jennifer L. Stanley, MSN, FNP-BC, ONP-BC, a Family Nurse Practitioner with OrthoIndy Hospital Main

Get to know Family Nurse Practitioner, Jennifer L. Stanley, who serves patients in Indianapolis, Indiana.

New York City, New York Dec 1, 2021 ([IssueWire.com](https://www.issuewire.com)) - Jennifer is a board-certified family nurse practitioner practicing at OrthoIndy Hospital Main in Indianapolis, Indiana. She specializes in orthopedics. Her primary practice is based on trauma and upper extremity fracture/elective surgical interventions.

OrthoIndy is one of the most highly respected orthopedic practices in the Midwest. OrthoIndy provides leading-edge bone, joint, spine, and muscle care from multiple locations throughout Central Indiana while staying true to its mission and its patients. Their mission is to provide the highest quality, comprehensive bone, joint, spine, and muscle care to patients throughout the Midwest, the United States, and around the world.

Academically, Jennifer graduated with her Associate of Science in Nursing degree from the University of Saint Francis in 1999, and earned her Bachelor of Science in Nursing degree and Master of Science in Nursing degree at the same educational venue in 2005 and 2009, respectively. She has worked in the nursing field for over two decades.

To ensure her patients receive the best care, she is a board-certified family nurse practitioner (FNP-BC), and a board-certified orthopedic nurse practitioner (ONP-BC.)

Her family nurse practitioner board certification is through the American Academy of Nurse Practitioners and her orthopedic certification is through Orthopaedic Nurses Certification Board. In Indiana, there are only three nurse practitioners who hold the ONP-BC affiliation.

In order to stay up to date in her field, Jennifer is a member of the American Nurses Association. She can also be found on staff at St. Vincent Hospital - Indianapolis.

A Board-Certified Family Nurse Practitioner (FNP-BC) holds board certification and provides continuing and comprehensive healthcare for the individual and family across all ages, genders, diseases, and body systems. FNPs maintain patient records, perform physical exams, order or perform diagnostic tests, prescribe medications, develop treatment plans, as well as treat acute and chronic illnesses, conditions, and injuries that fall under primary care. The specialty of orthopedics has always been Jennifer's interest, and holding the ONP-BC status highlights that expertise.

On a more personal note, Jennifer attributes her success to her self-motivation and her determination.
