About Dream Changers Publishing Inc.

Dream Changers publishing was founded in 2019 by Janella Garner, Melanie Benson and Phil Park. The Company has developed a new comic book series based on their own children's storybook *Lost Legend of the Jade Shifters* that was released in 2020. To accelerate learning and make it enjoyable, the Company created a new virtual reality world where kids and adults can access life-changing tools and skill sets that they currently lack in today's world.

This takes place inside a fun and magical gaming platform created by the Company called the Newbicon Marketplace. These activities increase the learning potential for both children and adults. By learning powerful life lessons and various skills, this will give children and adults the ability to deal with real life situations and make better lives for themselves and their families.
