

John W. Cory, MD, an Orthopedic Surgeon with Arizona Institute of Motion

Get to know Orthopedic Surgeon Dr. John W. Cory, who serves patients in Scottsdale, Arizona.

New York City, New York Dec 10, 2021 ([IssueWire.com](https://www.issuewire.com)) - An exceptional orthopedic surgeon, Dr. Cory is the Director of the Arizona Institute of Motion in Scottsdale, Arizona. Through his love and dedication to soccer and his passion within the medical field, he believes that his purpose has come full circle as he uses his knowledge and expertise to guide young athletes in not only recovering from an injury but in the prevention of injury through optimized movement and athleticism.

With a broad educational background, he earned a Bachelor of Science in Exercise Science and Physiology from Wake Forest University. While he was at Wake Forest, he was fortunate enough to play two seasons of varsity soccer under the legendary George Kennedy who was the original men's varsity soccer coach at the university. The academic rigors of the university and a new coaching regime brought an end to John's collegiate soccer career, but not his lifelong passion for the sport and all sports.

In combining this passion with his studies at Wake Forest, he earned a job as one of two assistant student strength coaches for varsity athletics while he completed his undergraduate degree. This parlayed into a job after graduation creating sports medicine frameworks for three NASCAR teams, including the NASCAR champion Alan Kulwicki in the early 1990s.

The doctor then returned to Wake Forest University in Winston-Salem, NC, and completed his medical degree at The Bowman Gray School of Medicine. Immediately after, he completed a general surgery internship at The Wake Forest Baptist Medical Center. This was followed by a move to Columbia, South Carolina where he completed his residency in orthopedic surgery at the University of South Carolina.

During this time, he had the opportunity to take care of the local high school football team, several players on the local high school boys and girls soccer teams, the Columbia City Ballet, varsity athletes, and teams in the University of South Carolina and South Carolina State Universities, and recruits injured at the Fort Jackson US Army training base in Columbia, South Carolina.

Dr. Cory continued to play club soccer through his residency and coached within the youth soccer club when he had time away from his resident duties. Following the completion of his residency, he moved to Birmingham, Alabama, and completed a fellowship in foot and ankle surgery. He studied sports medicine at the American Sports Medical Institute (ASMI) under Dr. Jimmy Andrews, Dr. William Clancy, Dr. Larry Lemak, and Dr. John Gould, to name a few. He was later invited back to ASMI in 2009 to teach the foot and ankle fellowship with his professional mentor, the late Dr. Angus McBryde during his final academic year in Birmingham.

Having invested in teaching through community effort, he currently holds academic appointments in orthopedic surgery with the University of Arizona College of Medicine-Phoenix, A.T. Still University, and Rocky Vista University. He also has a faculty appointment in pre-health sciences from Arizona State University and Grand Canyon University.

Among his other roles, Dr. Cory is the founder of AIMagination and Stone Soup charities and was recently appointed to the Scientific and Medical Advisory Board of Kaliber Labs, developing AI in sports medicine interventions. He has also served as the team foot and ankle surgeon for the Arizona Cardinals, Arizona Coyotes, Arizona Diamondbacks, Phoenix Rising, Paradise Valley High School, and was the first Medical Director of the Barça Academy in their inaugural year in the United States. He is also the Director of Medicine and Sports Science for Lacrosse Scotland and Scotland Box Lacrosse.

Additional organizations and clubs he acts as a consultant for include: The Texas Rangers, The Oakland A's, The Minnesota Twins, The California Angels, The Chicago Cubs, The Tennessee Titans,

The Chicago Bears, The PGA Tour, The LPGA Tour, USA Gymnastics, Arizona Youth Soccer Organization, US ODP Soccer Western Conference, US Rugby, US Soccer, FC Barcelona and Free2Play.

Furthermore, Dr. Cory has functioned as one of the two Phoenix Venue Medical Director for the CONCACAF Gold Cup games in the years 2015, 2017, and 2019 and 2021, Copa America Centenario 2016, and several international friendlies including USMNT vs Panama 2019 in Glendale.

Recently, the doctor has had the fortune to be an invited guest at the last two iterations of the FIFA Sports Medicine in Football meetings in Barcelona 2018 and Wembley Stadium 2019 and has been invited back to Barcelona for Barcelona Sports Medicine Week 2019. His social, philanthropic, and charity board involvement in Arizona includes Andy Hull's Sunshine Foundation, CRC Foundation, Arians Family Foundation, RSL Academy, Barça Academy, and The Phoenix Rising Youth Foundation, and Dream City Academy Basketball program.

Orthopedic surgery is the branch of surgery concerned with conditions involving the musculoskeletal system. Orthopedic surgeons use both surgical and non-surgical means to treat musculoskeletal trauma, spine diseases, sports injuries, degenerative diseases, infections, tumors, and congenital disorders.

When he is not involved in clinical and teaching responsibilities, Dr. Cory enjoys hanging out with his family which includes three grown sons and tgre bulldogs (one English and two French). He loves anything to do with salt water, and volunteering around youth education, sports (particularly soccer), as well as themes in wellness, dance, and movement.
