

Leawo Brings Batch Photo Background Removal Feature to PhotoIns 3.0.0.0

Leawo today officially launches PhotoIns 3.0.0.0, bringing a new feature to Photo BG Remover module – batch photo background removal. Users can remove background from a batch of images in one-click.

Shenzhen, Guangdong Dec 14, 2021 ([Issuewire.com](https://www.issuewire.com)) - For most people, [removing background from images](#) is a tedious task, especially when a large number of images need to be processed. Admittedly, batch photo background removal is more difficult and time-consuming, but it is significant for e-commerce, batch content production, and more fields that need this feature to speed up workflow. Fortunately, Leawo Software, a company specialized in multimedia solutions and data management software, in order to help users remove photo background in a batch more efficiently, today officially released [PhotoIns](#) 3.0.0.0 with the new feature of batch photo background removal.

“The release of [Leawo Photo BG Remover](#) has brought a whole new way for our customers to remove background from an image. Thanks to the deep-learning algorithm, users can remove and edit photo background in simple clicks without professional knowledge,” said Stone Brooks, the product director of Leawo PhotoIns, “Now, Leawo PhotoIns 3.0.0.0 brings the new feature to remove photo background in

batch, which improves users' work efficiency to a higher level.”

Leawo PhotoIns 3.0.0.0 makes it possible for all users to remove photo background in batch without effort, which greatly increases the productivity of batch photo processing. Once source photos are loaded, Photo BG Remover will intelligently analyze the clipping edges, and automatically remove background from a mass of photos instantly. Users only need to click the Output button to configure output settings, and then they can get the results with photo backgrounds removed.

In addition to batch photo background removal, Leawo Photo BG Remover also offers various tools to manually remove and edit photo backgrounds one by one. For more precise background removal, it provides users with Auto and Manual modes to remove photo background with or without a smart algorithm. After photo background removal, users can change the background to any solid color or desired photo, and add abundant effects to the photo's foreground and background, including fuzzy, grayscale, pixelate, shadow, and so on. All edited photos can be output in batches.

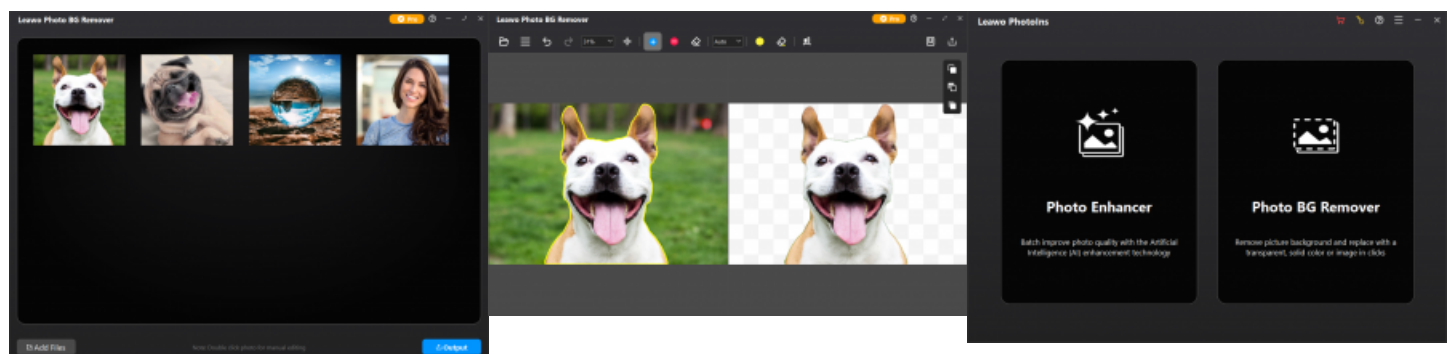

Price and Availability

Leawo PhotoIns, consisting of [Photo Enhancer](#) and Photo BG Remover, is available for Windows and Mac, and all users can download and experience it for free. But Leawo PhotoIns 3.0.0.0 is currently released for Windows only, and will soon be available on Mac. For the advanced version, a one-year license costs \$49.95, and a lifetime license costs \$69.95. Furthermore, a limited-time \$9 discount will be automatically activated for both licenses when purchasing.

About Leawo Software
