

Metavorz Token META Just Went Live to Build the People's Metaverse!

The Satoshi Nakamoto's Metaverse Vision

Metropolitan Manila Area, Philippines Dec 19, 2021 ([IssueWire.com](https://www.issuewire.com)) - The Age of Metaverse marked the start of another internet and life adventure of the people starting today but it will be so different this time from the past ventures. Metavorz is a new startups that aimed to immortalized everything starting from the NFTs and Blockchain of Things.

Facebook, Microsoft, Roblox, and even Nike entered the NFTs Metaverse at the same time an eye-opener for the crypto kids. Isn't it time to challenge the idea of that very Metaverse core.

Metavorz just launched its first Utility Token called the "META" to push that dream of the century. The idea is to build the People's Metaverse, and fight back from the Giants establishing a DAO kind of movement building the next future of Metaverse.

The vision of Metavorz project is to let everyone join in as co-founders instead of just being a product by assembling the META ARMY cypherpunkers of the Metaverse. Satoshi Nakamoto will be the inspiration of such Meta-movement of the people.

The META Token started its trading on December 17, 2021 at 18UTC, that can be traded in the decentralized exchange of [QuickSwap](https://www.quickswap.io). The next target will be Kucoin just after its Coinmarketcap and Coingecko Listing. Other exchanges are also considered for listing the [META Token](https://www.issuewire.com).

It seems that the crypto kids won't stay silent but to join the Meta Revolution fighting for the Metaverse future.

The Metavorz Token is a Governance Utility Token for all of the projects inside the [META Evosystem](#) (Metavorz Evolution System).

Vorz Semi-Decentralized app is its first flagship android project SeDApp to be released ASAP this month or around Q1 2022. The Vorz is a social engaging app with its own NFT Marketplace for the artist and influencers. It will available for both Android and IOS soon too. One of the co-founder will also revive its four-five years old almost dead project [Bilibit](#) by letting the old 4112 Ethereum hodlers to swap their BLB to MET very soon. The idea is to rebuild its Shopping Mall in the Metaverse as well.

Burning event this Christmas will also be initiated for all unsold [13.6Billion META Token](#) from the total IDO's.
