

MK Loaded: On The Rise Recording Artist From New York City Is Ready To Compete With The Mainstream Artists

Los Angeles, California Dec 5, 2021 ([IssueWire.com](https://www.issuewire.com)) - Michael Kenner, Better known as [MK Loaded](#). Is a recording artist from New York City. He is also the owner of 2323 Entertainment. Mk Loaded dropped his debut single in 2018 titled "Run Up The Bag". This song alone had gained a ton of attention amassing over 60,000 streams on all platforms. In school, he played football and was very good at it. It did not take long for him to gain popularity around his area and create a buzz for himself within the music industry.

Growing up, life was not always a walk in the park. He had a somewhat dysfunctional upbringing. He lost his father at a very young age and he lost his mother due to drug addictions. MK Loaded had to step up and take care of his siblings. MK Loaded has always been inspired by major music pioneers such as Young Thug, Nipsey Hussle, YSL, and many other pivotal individuals within the industry. Although he admires these artists his sound is purely his own. He has a new style with an unorthodox way, mixing New York style of rap with a bit of southern Hip Hop. His goal is to land major partnerships with Young Thug and YSL. He is focused on growing his brand as well as staying consistent with his music. With sheer determination, he created his brand and has not turned back or let it up since.
