

NFT made from pure gold by artist Joinuae

now available on [Mintable](#)

Los Angeles, California Dec 5, 2021 ([IssueWire.com](https://www.issuewire.com)) - Artist [joinuae](https://www.joinuae.com) makes use of the tones, textures, and colors derived from sourcing natural materials to create their beautiful works of art. The dyeing process of their works is a long and intricate process, extracting pigment 3 times over using saffron, henna, and aloe vera.

Because their artworks are made using paper, the aloe vera extractions create an anti-termite effect, giving longevity and preserving the integrity of the paper for much longer than usual.

The saffron used prevents the paper from turning acidic due to a substance found in the ingredient called tampon, or buffer. It has properties that keep the environment PH neutral thus protecting the chemical balance found in the paper.

Lastly, henna extraction protects the work from the effects of humidity because it prevents fungi from developing on the paper, against powdering. Installed in a 3mm MDF with PVC coating frame, the artwork is one that will withstand the elements of time. It helps prevent moisture from entering the frame and damaging the art piece.

Buyers of joinuae's work can not only expect an NFT they can keep forever, but also a physical masterpiece made from real gold and naturally derived materials sent to you via secured courier. The artist is showcasing 2 pieces of work from this collection.

ABOUT MINTABLE

Mintable is a next-generation non-fungible token (NFT) marketplace built on the Ethereum & Zilliqa blockchain. Launched in 2018, Mintable has pushed the NFT industry forward by being the first to design gasless minting, batch minting, and royalties, empowering artists and creators to monetize their work via NFTs. Mintable's gas-free minting option allows the everyday person to get involved with NFTs without any prior knowledge in coding or upfront cost of minting an asset – a great way for everyone to get into crypto. In 2021, Mintable announced the backing of a list of high-caliber investors including renowned venture capitalist and television personality, Mark Cuban, Sound Ventures, a venture capital firm founded by and Ashton Kutcher and Guy Oseary, and TIME Ventures, the investment fund for Marc Benioff. To date, Mintable has sold and auctioned works by Grammy-Award-winning artists, 20th-century avant-garde artists, and various high-profile artists and celebrities.
