Bring Extreme Experience and Streamline Workflow for Users

Since the launch of PDF Reader Pro in different platforms products, including Mac, iOS, Windows, Android versions, they have been widely used by 80 million users and won reputations such as Best Education APP.

Commenting on the new version for Windows, Senior Product Manager of PDF Reader Pro Series said,

“Whenever we design new products or new versions, we always put both users' needs in the first place. When developing this new version, we put ourselves in users' shoes and consider what functions they widely use in daily life and work. So whether you are a student, enterprise, etc, the new PDF editor will change the way you work with documents and significantly improve your productivity in a simple and convenient way.”

Additionally, the Manager added that a full testing cycle has been performed in order to assess the performance of the application. And same to applications from the App Store, they definitely guarantee the safety of the installation file: no viruses, no malware.

The new Windows version of PDF Reader Pro is compatible with Windows 7, Windows 8, Windows 10, and Windows 11. A free trial for 7 days is now available on the website.
