

Rami Abdin launches his second NFT Drop - Iconic Landmarks of the USA

Abu Zabi, United Arab Emirates Dec 7, 2021 ([IssueWire.com](https://www.issuewire.com)) - Abu Dhabi based photographer Rami Abdin launches his second NFT Drop - Iconic Landmarks of the USA

This second NFT Collection comes from Rami's last trip to the USA where he took a selection of photos of a number of iconic landmarks on the East Coast.

[NFT Workx](#), a specialist NFT Services company who represent professional Sports Clubs, Artists, Photographers, Authors and Athletes from around the world, today announces the launch of Rami Abdin's second NFT Drop '[Iconic Landmarks of the USA](#)'.

[Rami Abdin](#) is a professional photographer and videographer, born in Abu Dhabi UAE.

"This is my second NFT collection which is based on photos I took of iconic landmarks when I was last in the USA. When it comes to my photography, I have a real passion for cities, landscapes, travel and wildlife photography from around the world. I have my own dedicated studio where I enjoy animating my photos and making them into digitalized animated artwork and this is what my NFT projects are based on..." said Rami Abdin.

The NFT Collection includes 12 unique and animated photos of some of Rami's favourite landmarks from the USA including The Manhattan Bridge, New York, New Jersey and Wall Street. The NFTs are being sold as a 1/1 collection meaning that the buyer of these exclusive and iconic landmarks will receive the full resolution digital file. Rami is already working on his next NFT project which will be focused on Wildlife photos.

His goal is to further expand his reach and share his photography as widely around the world as possible. He also hopes to encourage other artists from the region to consider converting their artwork into NFTs.

"Rami is an extremely active photographer and he couldn't wait to launch his second NFT collection. We like to collaborate with artists who are forward thinking and passionate about their art and about utilising the new medium of NFTs..." said Adam Leese, Co-Founder of NFT Workx.

About Company Name

NFT Workx provide specialist NFT Services and represent professional Sports Clubs, Artists, Photographers, Authors and Athletes from around the world. Their services aim to help artists enter the world of NFTs and maximise the opportunities that these new marketplaces offer.
