

The most efficient way to sell your sneakers? dropout announces a new sneakers buying system with immediate payment

sneakers and streetwear directly to dropout.

We accept most trending products as long as they are new and authentic.

We provide you with an instant quote, direct payment, and rates that are higher than any other European sneaker consignment store.

The process is very simple:

- visit sell.dropoutmilano.com/wtb (you must be registered and logged in), select the item you want to sell, you will immediately see the payout (it will always be higher than the other online marketplaces) follow the steps, and send us your product.

You will be paid immediately (via Paypal or bank transfer) once the product is authenticated.

For those looking for even higher profit, our consignment system is also active on sell.dropoutmilano.com and allows users to list their items while maximising their profit.

The process for listing is very similar to the one above, however, you get paid once the product has been sold by dropout.

Happy sale!
