

The Story of Artificial Cognition - NFTs Now on Mintable

Los Angeles, California Dec 7, 2021 ([IssueWire.com](https://www.issuewire.com)) - Darius Carter is an emerging NFT artist with a dark and cerebral style. His first collection features 12 NFT artworks that tell the story of artificial cognition.

"A theme expressed within the struggle of the paddler and the paddle, as well as the paddler and the boat, the boat, and the water, most importantly the struggle within to not just let go of the paddles and float. I feel like I am everyone and everyone is me. This is the future that is now and has been. We have been through a lot to make this masterpiece and now the world is ready. We are you aren't we?"

The NFT collection is [now available on Mintable](#)

ABOUT MINTABLE

Mintable is a next-generation non-fungible token (NFT) marketplace built on the Ethereum & Zilliqa blockchain. Launched in 2018, Mintable has pushed the NFT industry forward by being the first to design gasless minting, batch minting, and royalties, empowering artists and creators to monetize their work via NFTs. Mintable's gas-free minting option allows the everyday person to get involved with NFTs without any prior knowledge in coding or upfront cost of minting an asset – a great way for everyone to get into crypto. In 2021, Mintable announced the backing of a list of high-caliber investors including renowned venture capitalist and television personality, Mark Cuban, Sound Ventures, a venture capital firm founded by and Ashton Kutcher and Guy Oseary, and TIME Ventures, the investment fund for Marc Benioff. To date, Mintable has sold and auctioned works by Grammy-Award-winning artists, 20th-century avant-garde artists, and various high-profile artists and celebrities.
