

Two Aspiring Entrepreneurs Showed a Big Heart, Gives Land to Metro Free of Cost

Gupta Brothers created history by giving land free of cost to UPMRC to upskill their hometown natives, broadening the technology atmosphere and generating employment opportunities.

Kanpur, Uttar Pradesh Jan 3, 2022 ([Issuewire.com](https://www.issuewire.com)) - Lucknow-based entrepreneurs, Priyank Gupta and Ishank Gupta shared their land worth Rs. 48 lakhs with UPMRC (Uttar Pradesh Metro Rail Corporation) without taking a single penny.

Adhering to the talented and skilled individuals in Kanpur, the Gupta brothers bought land in *Swaropnagar* to set up their business operations.

Consistently climbing to the ladder of success, both BTech graduates owned an IT firm, W3Villa Technologies Pvt. Ltd. with offices based in Noida & Kanpur (India) and California (USA).

According to the younger sibling, "Kanpur has talent in abundance but lacks proficiency in blockchain technology. Subsequently, we pushed our limits and bought commercial land to unburden the shackles of financial burden.

Just after a month, we received a notice from UPMRC for the acquisition of the office land for the Kanpur project.

Initially, we were left speechless when the notice stumbled upon us. Adding icing on the cake, the compensation amount offered was considerably low to what we actually paid for it. After a painstaking discussion, we agree to support the government project, said the big brother.

Even the UPMRC officials said that we even showed appreciation and gratitude towards the duo for

their immense support and humbleness. In reciprocation, we offered them entry and exit space for their under-construction office.
