Tyres & Exhausts Morley Products & Services

Products

They stock a wide variety of quality car tyres for different vehicle classes in their inventory.

Summer Tyres - This range of tyres delivers optimal grip, traction, handling, and responsiveness during the hottest period of the year. They incorporate a unique rubber compound with simple tread patterns, ensuring hydroplaning resistance.

Winter Tyres - These units offer high driving performance in temperatures below 7 degrees Celsius. Their softer rubber compound ensures improved grip, handling, and acceleration on snow and ice.

All-season Tyres - All-weather tyres are a compromise between the seasonal tyres: summer and winter. They provide optimal driving performance in all driving conditions throughout the year.

Performance Tyres - Performance tyres deliver the best performance even at high driving speeds. They are suitable for high-performance vehicles like sports cars, coupes, and luxury sedans.

Run-flat Tyres - When you equip your vehicle with run-flats, you can drive your car up to a distance of 50 miles at a speed of 50 mph on a puncture.

4*4 Tyres - These units are suitable for off-road performance.
