

Unidot Blockchain and Listing Update's

Unidot, Finance Latest Listing Process Update's

Dubai, United Arab Emirates Dec 27, 2021 ([Issuewire.com](https://www.issuewire.com)) - UNIDOT FINANCE.

Unidot is a crypto staking platform, which gives users exquisite staking plans to gain rewards through fascinating yield rates.

Through standing as a home of decentralized finance, we assist participants with splendid passive income solutions.

The platform further gets bolstered by its indigenous token - Unidot (UT) token. It is a BEP-20 token built on the Binance Smart Chain network.

Unidot Token has successfully finished its free airdrop to their stakeholders, and only the condition is that whoever got the free airdrop must stake at least 50\$ worth UT TOKEN.

LISTING: the greatest announcement is its listing.
We have already finished listing UT TOKEN.

soon it will be listed in the European award-winning Centralised Exchange.
We can expect this in Jan 3/4th week of 2022.

after that, we can see our UT TOKEN in some more international Centralised Exchanges like HOTBIT, BINANCE, okex, LATOKEN, etc.

And Finally, UT technical team is working very hard for its very own User friendly with Ecosystem

BLOCKCHAIN.and LAUNCHPAD.

Blockchain is a decentralized ledger that makes a note of each and every transaction that takes place in its ecosystem.

It is a peer-to-peer network that handles all the digital records of data which will be sealed by cryptography.
