

Urban Coffee Carrier - The Right Way to Carry Your Coffee

World's First Sustainable, Reusable Silicone Coffee Cup Holder Tray and Carrier Bag

Sunshine Coast, Queensland Dec 12, 2021 ([Issuewire.com](https://www.issuewire.com)) - Urban Coffee Carrier – The Right Way to Carry Your Coffee!

My Willy Wagtail announces the launch of their new revolutionary product, the Urban Coffee Carrier! The world's first sustainable, reusable silicone cup holder & bag & will be available on Tuesday 14th December 2021 (9 am USA EST) via the crowdfunding site Kickstarter worldwide.

Let's be honest and think about the daily resources needed to recycle and remake those throw-away trays. The Urban Coffee Carrier is made from high-quality materials to stand the test of time. So, there is no need to throw it away.

Even though there were recyclable trays, Julie could see the energy and water use, and the rise of greenhouse gas emissions was very impactful. So, Julie designed the Urban Coffee Carrier to make a difference. It was a pivotal point in her life, and thus began her mission to change the industry one tray at a time.

The Urban Coffee Carrier is modular so that you can carry two, four, or even six beverages at a time and your snacks. So, you can safely and securely have everything you need in one hand for coffee time and more. As a bonus can also use the 2 cup carrier by itself for that quick coffee dash or even use the bag to pick up those few essential items.

"The future is in our hands & we must honour and be mindful of the next generations to come. We must make better choices to 'GO GREEN', creating a sustainable future. Life depends on it" - Julie McKenzie FOUNDER –

The Urban Coffee Carrier covers most drink sizes, and there are ample pockets to hold your items, such as your keys, wallet, phone & even straws. Did we mention it is dishwasher safe, BPA free, food-grade silicone, heat resistant, stain-resistant, leakproof and waterproof?

The Urban Coffee Carrier is modular and has the ability to carry two, four, or even up to six beverages plus snacks. It's so convenient so you can use one of the 2 cup holders by itself for that quick coffee dash. The Urban Coffee Carrier will be a product the world will be talking about!

Use at home, in the office, or on the run to meet with friends. The Urban Coffee Carrier is unlike anything else on the market. It has everything you need and is even easier to store away when you are finished.

With every purchase of The Urban Coffee Carrier, we will plant a tree & together. We can make a difference!

In 2016 founder Julie McKenzie was inspired to design a range of innovative quality products that were reusable. Julie and her family are committed to bringing new concepts & sustainable innovation to life. My Willy Wagtail will be designing more reusable products to revolutionise how we think about expendable products.

"It's time to evolve and make a genuine change to reusable. Together we can make a difference! Our children will thank us." - Julie McKenzie Founder -
