

Alfaro Beats: Young Trending Producer From Arizona

Los Angeles, California Jan 21, 2022 ([Issuewire.com](https://www.issuewire.com)) - [Alfaro Beats](#) is an on-the-rise music producer from Phoenix, Arizona. Since the age of 18, he has been creating productions and perfecting his craft. His career first began when he produced his first album with an AZ artist named “Dre Polo”. The project was called “Dear Summer”. His music speaks for itself, which is why he has worked with artists from all over the world, even known artists such as Wacotron, Yung Simmie, Slim 400, and others. He states *“Took me 1 year to learn how to use fl studio, how to make the 808s bang, how to make a clap, have reverb and so on”*. He is a self-made producer who teaches himself everything he needs to know about the industry. As a hardly known state where producers aren’t recognized or acknowledged, he would like to change the recognition of producers from Arizona. With dedication and patience, comes success. Music has helped Alfaro Beats therapeutically as a person who deals with anxiety. He states *“Never forget that giving up is not an option.”*

His musical talent has gotten his name well known around his area. After starting music he began selling his beats on platforms such as beatstars which has helped his music travel further and it even helped him land bigger placements. Currently, he is working on a new project with Wacotron to release this

year. Being known throughout Arizona is amazing, but he plans to get his name to be a household name such as Londononhetrack, Metro Boomin, Murda Beatz, etc and it's just a matter of time. Right now he is focused on growing his brand and continuing to get his music heard around the world. Alfaro Beats is a musical staple when it comes to Arizona and soon his music will be heard everywhere.
