

Amantya Technologies, Inc. Inaugurates New Office in Gurugram to Accommodate Its Growing Employee Base

The state-of-the-art facility can seat over 500 employees

Gurgaon, Haryana Jan 18, 2022 ([Issuewire.com](https://www.issuewire.com)) - Amantya Technologies, Inc., a leading global systems integration and product engineering company, today inaugurated its new, future-ready office in Gurgaon, India. The office, a global center supporting innovation, is centrally located in the Millenium city and has a seating capacity for approximately 500 employees.

The new office space is provisioned to meet the company's rapidly growing employee base and is designed to foster an advanced culture of learning, creativity, and collaboration. In line with the company's vision of being at the forefront of digital transformation, the office is equipped with a state-of-the-art 5G lab and next-generation IoT lab. It also boasts of two 75 seater off-shore development centers for cutting-edge research and development.

The tastefully done interiors, centered around creating immersive employee experiences, reflect a youthful look and feel with eclectic design elements, a rich palette of colors, and aesthetics. Embracing the new normal and supporting a smart working environment, the workplace has been designed keeping

in mind employee wellbeing and safety as the most crucial elements. The layout ensures social distancing while maximizing the usage of natural resources to provide the employees with a safe, secure, advanced, and empowered workplace.

Speaking at the occasion, [Anuradha Gupta](#), CEO, Amantya Technologies, Inc., said, “The Amantya family has been growing by leaps and bounds since the company’s inception in 2018. From a team of 40 in the first year to 400+ by 2021 end, we are growing rapidly, and our new office space is designed to meet our evolving business needs. Amantya has always driven a culture that augments employee capabilities, sparking out-of-the-box futuristic thinking, and our new office embodies this culture of creativity, innovation, and collaboration. It is built to create a welcoming, inclusive, diverse, and inspiring workplace for our employees where they feel a sense of belonging and pride, find the right work-life balance, and grow exponentially.”

The spanking new office, a center of excellence and innovation for the company, is designed with an open seating layout, smaller spaces for individual working requirements, and multiple collaborative spaces for creative interactions. The office also houses a cafeteria, a recreation area, and a wellness center.

“We wanted to create a futuristic, evolved, and empowered workspace for our employees. Also, to ensure security and safety for us all in this new normal. As a forward-thinking organization, we have been quick to embrace the change thrust upon us by the pandemic. The office space is digitally advanced, with the utmost focus that technology and spaces integrate seamlessly to support teamwork and meaningful interactions to drive disruptive innovations.” further added [Sanjay Bisen](#), CTO, Amantya Technologies, Inc.

Amantya powers clients across industries globally and has grown at a remarkable pace since its launch in 2018. The company is focused on building multiple world-class IT ecosystems worldwide to leverage emerging technologies and transform lives.
