

AWL India Undertaking Another 10 Lakh sq. ft. Area Under its Expansion 2022 Plan

AWL India Announces Expansion of its Existing Warehouse Network Citing New Opportunities

Delhi, India Jan 22, 2022 ([IssueWire.com](https://www.issuewire.com)) - AWL India is a leading logistics and [supply chain management](#) company that excels in delivering the best solutions in accordance with the industry. The company is well-known for offering solutions related to logistics by incorporating cutting-edge technology, world-class innovations, and a dedication to making your business prosper.

The fastest-growing [logistics company](#) recently made an announcement regarding the expansion of its warehouse network. The firm has reportedly added 10 Lakh square feet of area under its expansion plan for the year 2022. With an aim to provide excellent services and assist companies in thriving through the growing competition, this expansion will tap new opportunities in the pharma, retail, apparel, and e-commerce industries.

As per the official statement released by the CEO of AWL India, Rahul Mehra, this step will only contribute to improving the efficiency of its business and operations in a PAN India network. Additionally, this will be serving as a key factor in driving growth to the company.

The firm has been implementing new innovations and facilities to facilitate the enhancement of freight flows in the face of the increasing demand of the industry. AWL India recently came to the forefront of the industry by implementing a new facility in Pune. It came three months after the company opened an ultra-modern facility in Nagpur.

Along with these, the firm is eyeing other influential cities to enhance PAN India's development of the firm.

The ultra-modern facility is incorporated to provide enhancements in the connectivity and end-to-end logistics in the above-mentioned areas. Discussing further the features of this facility, it is equipped with the required firefighting equipment and manpower, integrated rainwater harvesting system, dedicated green zone, and utilizing solar energy. It has ultra-modern transshipment enabled to boost the storage and [warehousing](#) needs for faster connectivity.

As a result of the company's efforts, implementations, and strategies, the actions taken by the company in the fourth quarter of the year 2021, were fruitful. This gave the company decent friction for the execution of its plan in the year 2022.

In addition to this, we must lay an emphasis on the statement released by the highly motivated and exemplary CEO of AWL India, Rahul Mehra. It said that the company's investment of capital in this high-ROIC business will contribute notably to the benefits of the customers across the national platform.

Leading Logistics Industry with a Perfect Blend of Environment-Friendly Initiatives and [Technology](#).
