General dentists, like Dr. Degel, provide a wide array of services that are vital to patients' continued health. These services include preventive services — helping to maintain good oral health by stopping disease before it takes hold in the mouth; restorative services — receiving timely and appropriate treatment when a problem is identified; as well as cosmetic services — performing a range of cosmetic procedures, such as teeth whitening, cosmetic bonding – even porcelain veneers. General dentists also address overall health concerns, as oral health is seen as the mirror of general health.

Dr. Degel's superior quality care in dentistry has earned him distinguished recognition. He has been featured on "Top Docs" and the December 2002 issue of Vogue, celebrating best care providers of the Tri-State Area. He was also named one of America's Top Dentists in 2005-2006 by the Consumers Research Council of America.

Dr. Degel attributes his success to his dedication to patient care, his continued education, and his love for dentistry. In his spare time, he enjoys playing golf, watching Yankees baseball and Giants football, as well as spending time with his family and friends. Dr. Degel and his wife Carmen have three beautiful daughters together, and the family loves to travel whenever their time allows.
