

CyberTech Achieves Microsoft Gold Partner Status

Oakbrook, Illinois Jan 13, 2022 ([IssueWire.com](https://www.issuewire.com)) - CyberTech announced today that it has attained Microsoft Gold Certified Partner status in the Microsoft Partner Program. This milestone demonstrates CyberTech's expertise and proven track record of achieving success for clients with its Microsoft Azure Cloud initiatives. In addition, CyberTech's solutions are available on the Azure Marketplace and AppSource.

"Microsoft Gold partner status is a recognition of our market-leading position in Cloud services and solutions within Microsoft Azure Cloud" commented Vish Tadmety, CEO, CyberTech. "CyberTech's expertise in the Microsoft Azure opens up further opportunity for our customers to accelerate cloud adoption and transform business processes."

As a Microsoft Gold Partner, CyberTech is a trusted partner to global enterprises driving Cloud transformation. CyberTech expertise includes SAP digitalized solutions and next-generation spatial analytics. Through its cloud experience, expertise and best practices, CyberTech enables enterprises to unlock economics, scale and agility of hyperscalers.

Spatialitics, a product subsidiary of CyberTech, offers innovative geospatial solutions built over Azure cloud. Its SaaS-based solutions are also listed on the Azure Marketplace and Microsoft AppSource, to easily find applications certified to run on Microsoft Azure.

The Microsoft Partner Network helps partners strengthen their capabilities to showcase leadership in the marketplace. Microsoft Gold competency is a recognized mark of the highest standards of technology and business performance worldwide. By achieving Microsoft Gold Partner Status, CyberTech demonstrates the highest level of technical excellence with Microsoft and Azure technologies and its commitment to meet customers evolving needs for a secure, productive, and collaborative workplace environment. As a Gold partner, CyberTech receives the benefits of a deeper working relationship with Microsoft.

About CyberTech

CyberTech is a CMMI Level 3 company focused on Cloud transformations, SAP digitalized solutions and next-generation spatial analytics. The company delivers the benefits of SAP S/4HANA with digital business processes that improve customer experience, provide real-time & predictive insights, and
