

Fadal CNC Spindle repair services

Fadal Spindle

REBUILT SPINDLES FOR FADAL MACHINES

TOTAL REBUILD!

*More than just Repaired:
Reengineered
& Built to Last*

Our new & improved rebuild process means all of our Spindles are the same. All Spindles are upgraded to the latest FADAL design.

One Spindle for all configuration.

The advertisement features two images of Fadal CNC spindles, one on the left and one on the right, both showing the internal components and the I.T.S. logo. The background is a blue and white gradient.

Chatsworth, California Jan 11, 2022 (Issuewire.com) - Check out our website and see the full range of Fadal CNC Parts we carry.

Here at Independent Technology Service Inc., we offer full [CNC spindle repair services](#) from minor maintenance to complete rebuilds. Our skilled technicians will keep your CNC machines running efficiently.

We service all Fadal Spindles - ALL RPMS and ALL Lubrication Systems: Our spindle rebuild service will completely restore your Spindle to like-new condition.

In addition to New Bearings we also perform the following steps:

- Re-Grind the Taper.
- Turn the Housing.
- Black Oxide the Housing (prevents rust).
- Replace Drawbar Floater & Springs.
- Update Spindle to the latest possible revision.

It's with our engineering knowledge that you are getting the absolute best product support possible at installation and beyond. The spindle is one of the most important aspects of the machine. Rebuilt Spindles have a Year Warranty. For more information on our warranty see our policies page.
