

Getting To Know Stephen Smith The Upcoming Artist And Owner Of Xplosive Records

Yonkers, New York Jan 13, 2022 ([Issuewire.com](https://www.issuewire.com)) - Stephen Smith is known as “Distruck” from Yonkers, New York. He’s the First Artist and Owner of Xplosive Records. Stephen Smith got where he is today by learning from his mistakes, believing in himself regardless of who doesn’t, working hard, and never giving up on his dreams. Stephen was really naive when he first started in the music industry. He truly thought that because of his talents, someone would discover him. Meanwhile, Stephen’s so-called friends wouldn’t help him get there as well. A whole lot of people secretly didn’t want him to succeed; however, a lot of them were after the same thing, but weren’t as talented as Stephen, didn’t have the same drive, and didn’t get the same attention as he did. Stephen Smith states, *“I got sick of all the snake energy, so I started my own label and signed myself as the first artist”!*

Stephen Smith Talks About Being Successful

The best advice, *“I can give is to surround yourself with people who want the same thing you want for yourself and will do their part as a member of your team! Also, remain a student of what you’re doing no matter how successful you become! Never get comfortable and think you know it all”!*

Success for Stephen Smith comes in many forms. As he mentioned,

"First, you must ask yourself what success means to you! Once you figure that out, do whatever you need to do, in order to achieve your version of becoming successful. Do not complicate that! Just do what you need to do".

What success means to Stephen Smith is *"being in a position to do exactly what you want, the way you want to do it. Becoming your own boss! I can honestly say I am! No one can fire me! No one can tell me what I can and can't put out! No one can tell me what I can't say! I have 100% control of my music and my company".*
