The idea behind SocioMee is to serve users' advanced benefits. The app will feature ethical content, complete privacy, and serve multiple features.

The main motive is to serve the European community a space where they can connect easily. Because of the low credibility of social media apps, day by day users' are quitting different social media platforms. But do you think is this the only way? With extensive knowledge, expertise and the day to day challenge the idea to develop a strong social community came out.

A Social Community Full Of Liberty And Perks

There will be control with the content you wish to undergo, strict data privacy, full parental control with the content, with enhanced business opportunities. SocioMee's main goal lies with you to augment the users' social presence.

It is an online community whose main vision is to serve users great benefits packed in one app. A start-up that is on the mission to reform millions of lives for those of businesses.

Also, it can be enhanced more when we unite to understand each other's needs. This means we all can easily help each other by participating in a definite cause. To make sure you land in the right place we are connected with different campaigns that are IndieGoGo, Kickstarter, RocketHub, Pozible, etc.

Here you can easily understand what SocioMee is and what goals we are taking forward. After all, our main motive is to build a strong community and by uniting we can easily make it possible.
