

IScann Group Extends Capabilities With The Appointment Of Kent Babin As Head Of Capabilities, Crypto

London, United Kingdom Jan 12, 2022 ([IssueWire.com](https://www.issuewire.com)) - IScann Group, an open-source intelligence company that enables organisations to counter an array of modern threats, today announced the appointment of Kent Babin, Head of Capabilities, Crypto.

With a specialty in crypto, blockchain, and fintech, Kent's role will be to bolster IScann Group's capabilities in these areas and help clients understand and respond to a variety of emerging threats in this new sector.

Kent's career in technology and communications has spanned numerous appointments in Mongolia, India, Egypt, Azerbaijan, and Singapore. Starting out as a project manager of software development projects for AIESEC, he eventually became the Chief Technology Officer of GoldenPay, Azerbaijan's first online payment services provider. He is currently an advisor on Crypto/Blockchain for the global communications agency Redhill.

"IScann Group's position at the intersection of technology, intelligence, cybersecurity, and information is exactly where I want to be," said Mr. Babin. "Crypto and fintech have a major role to play in the future, but also bring with them new threats that companies around the world need to be aware of. I relish the opportunity to leverage my experience to support IScann Group as it continues to drive new growth areas."

"We are delighted to have Kent on board as Head of Capabilities, Crypto," said IScann Group Managing Director, Andrew Vasko. "Crypto and fintech are burgeoning industries with their own threat landscapes. Kent's experience in these areas will help us provide our clients with a more comprehensive service encompassing an array of modern threats."

About IScann Group

IScann Group is an open-source intelligence company that enables companies to understand and counter an array of modern threats. By utilising proprietary methodologies, the Group monitors global security trends, tracks social media, and is at the forefront of exploiting digitalisation. The group is managed by Andrew Vasko.
