

KP Asli Pledges To Provide the Good Quality Chicken Supplies

Pulau Pinang, Malaysia Jan 10, 2022 ([Issuewire.com](https://www.issuewire.com)) - It has been noticed that adulteration is increasing day by day in the chicken production facilities. And, seeing this spike, the reputed chicken supplier here in Malaysia – KP Asli, plans to take the initiative where they will be trying to eliminate the dangerous practices to supply chicken. They have taken a lot of measurements to ensure that the entire processing of poultry is monitored for quality check. The experts working here are on their feet 24X7 to keep an eye on what goes in and out of the production facility.

Professionals at KP Asli have managed to plan some mandatory guidelines to be followed by every person working here. These new standards focus specifically on chicken health and farming methods along the whole supply chain, including the stages of rearing chickens, handling them, transporting them, and preparing them for consumption. The rules are the result of an intensive assessment process that took place over the course of years in collaboration with partners and experts from around the place.

The chicken welfare guidelines created by KP Asli specifically address and evaluate success in healthy chicken production. Following local legislation and supply chain conditions, each region has to monitor and track all the categories in accordance with their own unique needs and circumstances. Being the best supplier, it is also important to adhere to the environmental impact, animal welfare, and food security.

About: Since the year 2009, KP Asli has been the best [chicken supplier in Malaysia](#) that is pioneering in providing its customers with the best quality products at a very reasonable price. Pangkal Perdana Sdn Bhd, an associated company, supplies them with chicken feed that is produced according to the age, developmental level, and physical condition requirements of the chickens. For improved product and production quality, we have taken the help of a self-contained supply chain.
