

LPU COIN - Limpid Pecuniary Unite

LPU COIN is the newest cryptocurrency developed by students and graduates of Lovely Professional University (LPU). The first popular digital currency of one of the oldest civilizations in the world, the Republic of India.

Phagwara, Punjab Jan 10, 2022 ([Issuewire.com](https://www.issuewire.com)) - We present to your attention LPU COIN - a new and very promising international, but at the same time popular cryptocurrency of the Republic of India. LPU COIN developers are students graduates of Lovely Professional University. The best teachers and professors of LPU became advisors and like-minded people.

The developers are facing a really interesting and significant challenge for the e-commerce industry. The challenge is to create an attractive environment both for business in general and for individuals. With LPU COIN, businesses finally have a solution to trade assets and goods in a secure and inexpensive environment that allows them to achieve their ambitious goals while maintaining anonymity and confidentiality in all financial transactions.

LPU COIN provides instant transactions at virtually zero cost to anyone anywhere in the world. Computationally based and protected by mathematics, the LPU COIN network empowers people to

take control of their finances on their own. Our blockchain network, managed through the TOR network, is a highly secure private network that ensures that your wallet's IP address remains hidden for any transactional activity, as does your geographic location. This is an environmentally friendly project as it provides production without energy consumption with the confirmation of the technology and the winning algorithm. It is convenient for investors due to various earning models.

LPU COIN is a peer-to-peer cryptocurrency and can be termed as a modified version of the technology on which bitcoin was built as it allows completely private transactions, faster confirmation rates, and achieve consensus through the combination of Proof of Stake and Proof of Work technology, rather than solely depending on PoW.

LPU COIN is much more than just a coin, it is a lifestyle assistant and business partner. With LPU COIN, anyone, anywhere, and anytime can instantly transfer funds without borders, send instant messages, and deposit coins to receive interest. The LPU COIN ecosystem has been designed specifically for undeniable confidential financial transactions, messaging, and file transfers. Apart from private use, LPU COIN is also a strategic tool for both start-ups and mature companies to accelerate growth, offering strategic business opportunities that save time and financial resources.

Anyone who values the privacy and confidentiality of financial transactions needs anonymous cryptocurrencies. Businesses - to keep sensitive information about transactions, individuals - to ensure privacy.

Confidentiality and speed of financial transactions are important for business. The largest cryptocurrencies do not always cope with these tasks. The main problem with most cryptocurrencies is the lack of privacy. In the coming years, most cryptocurrencies will protect users' transaction history.

Our government sets limits on cash payments over a certain amount. A similar situation should be in the cryptocurrency industry. To transfer large amounts, users will undergo KYC verification and AML verification. The young and very promising LPU COIN development team not only counts but also pins great hopes on the support of the citizens of the Republic of India in creating a powerful and strong LPU Coin community and becoming a truly PEOPLE cryptocurrency. Our aim is not only firmly gain a foothold, but also to take one of the leading positions in the world of the cryptoindustry.
