

# **NEW WEBSITE LAUNCH: Introducing Propshop's New Website**

**Noida, Uttar Pradesh Jan 18, 2022 ([IssueWire.com](http://www.IssueWire.com))** - Propshop Real Estate Consultant has announced it owns a new website "[www.propshop-india.com](http://www.propshop-india.com)" which has been launched a few months before. It has been said by the Propshop Officials that the new website is considered to meet the trending needs of recent globalization which would open the door of new opportunities. Amid so far the company has successfully completed seven golden years of its excellence in the real estate market in North India.

Top officials from Propshop top management have enthusiastically reacted in different ways on the occasion of their new website induction in the real estate world. According to the managing director of the company, the launch of a new website in the real estate market will open a new door of opportunity to property lovers and buyers or investors. It's going to be a new creation of popularity with trustworthiness which will offer their clients a diverse digital platform to their [residential or commercial](#) needs which will open a new opportunity of getting a dream home or property, he added.

The new website will offer multiple resources and information for individuals searching for their dream home in Noida, Greater Noida, Ghaziabad including Indirapuram, Siddhartha Vihar, and so on in Delhi NCR. However, Propshop is already a known realtor in India which had made its presence in the few beginning days of its inception in 2014. "This move towards a new digital platform may boost the infinite reach in India and abroad, which will also assist in gaining maximum ORM, through the help of the online property-query, with such a unique user-friendly interface of this new website", a top marketing head assumed.

Propshop is mainly indulged in the Real Estate Consultancy offering [Best Real-Estate Consultancy](#) for the dream home buyers and investors in Delhi & NCR. They are all set to fly above the limit with the help of innovative wings and the courage of experience. For the betterment of client and property investors, such fly beyond the horizon would cater to the mass population around the world who is in the search of their dream residential and commercial space with configuration 1/2/3/4 bhk luxury home or retail space as well as office space in Noida, Noida Extension, Greater Noida, Ghaziabad, Indirapuram, Siddhartha Vihar, Raj Nagar Extension, and rest of Delhi NCR.

An unexpected variation in the real estate market has been seen so far from 2020 to date due to the coming of the Covid-19 pandemic. But, even in those days, Propshop claims to have a higher target achieving ratio than others in the market. This truth is not only for talk but they have proved themselves for this position as today. They have done millions of dollar property deals in the last few years. As told, Propshop also has the highest website visit ratio in the last few months too amid this ongoing pandemic. The company has generated more employment than others in the same business amid this pandemic, which also verifies the above truth.

According to a real estate market analysis, this is the second large employment generator in the country after the agriculture sector. It is assumed that the real estate market will grow to \$ 9.30 billion by 2040 from \$ 1.72 billion in 2019. Out of these above assumptions India is expected to reach \$ 1 trillion real estate sector value by 2030 up from \$ 200 billion in 2021, and hence, there will be a large contribution of 13% to the country's GDP by 2025. This is why there's a chance of massive growth in retail, hospitality, and commercial real estate. Such a boom in the real estate market will take advantage of [Digital Platforms](#) as well. Propshop has been gaining upscale value in this market consistently which also will

grow significantly, and will provide the essential social and economical infrastructure for the growing need of India.

As per the above market analysis, a forecast has been done by the Propshop's property experts regarding the same which says that a new and well-maintained website, with the well-equipped [Residential & Commercial Properties](#) on a single platform, would also play a big role in the upcoming real estate market growth, and it will be a big contribution of Propshop in Delhi and NCR. The true purpose of launching the new website would give this largely emerging sector the wings to fly high, and at the same time a smart platform that would ease the search for a dream home and dream property space in North India, they added. However, how the real boom would come one cannot assume exactly but, wait and watch are the two things that can let it happen. When it will happen we would definitely be a part of that change.
