New Delhi, Delhi Jan 14, 2022 (Issuewire.com) - Due to continuous technological advancements, medical transfer of seriously ill patients via air is easily possible. At **Air Ambulance Service in Patna**, operated under **Panchmukhi Air Ambulance**, we deliver therapeutic relocation with enhanced pre-hospital care throughout the expedition. We have focused that none of the patients feel unstable during the medical transfer process. We have quality medical equipment that is efficient to limit the mortality

rate during travel and to monitor critically ill patients. We ensure to provide the safest and convenient possible medical transportation at a budgetary cost.

Sometimes People suffering from health problems spend a lot of money and book commercial vehicles or planes to reach the health center, but it was not fully trustworthy as per their possibilities. There is no organized medical gear collection in profitable aircraft or vehicles, which reduces the survival rate of patients during the voyage. At [Air Ambulance in Patna](#), we always provide the charter aircraft with well-arranged medical amenities. We make sure that sufferers never complain to us about the medical evacuation service provided to them in an emergency. Compromising quality in medical transfer service can prove fatal for any patient so we always maintain the quality during air medical evacuation.

Panchmukhi Air Ambulance in Delhi: Curative Repatriation for a Medically Disabled Person

Many road accidents happen every day in Delhi. The information of a person who was a victim of such a road accident reached us. The patient's brother contacted us and told us that his brother was badly injured due to a heavy road accident. After a few days in the hospital, his condition has improved. He requires going back to his home in Ranchi, so we at [Air Ambulance in Delhi](#) made all the arrangements and provided the dedicated charter aircraft to him so that he reached the destination place Ranchi immediately. We had taken complete care of everything throughout this expedition and also ensured that the hassles during the transfer are minimized. There are many more such stories where we have successfully relocated sufferers to reach their stated destination with ease.

We at **Air Ambulance Service in Delhi** have the best and helpful ground ambulance to pick up critical patients from their homes at the nearby city airport. Our medical personnel always work hard and are dedicated to their work during the relocation process. Also, our telecom department is not less than anyone as they always show their good behavior in case of service booking in an emergency.
