

Sunknowledge Services Inc. Has a Back up Plan for Providers with Urgent Care Billing

New York City, New York Jan 30, 2022 ([Issuewire.com](https://www.issuewire.com)) - Sunknowledge Services Inc is a trendsetter in the world of medical billing. The company is currently working with both payers and providers across more than 28 specialties. They are driving the revenue cycle for more than 100 urgent care centers all across the US with strong references.

It is true that in an urgent care industry, getting your patients in and out fast should be your biggest priority. However, to be successful, it is critical to have the same parameters in managing your urgent care billing effectively. 2021 may not be the year that you expected! But it is also the year that you learned and lived.

Despite changing guidelines, you focused on your patients, pivoted to stay compliant in your urgent care coding and billing. Patient volumes are sky-high in urgent care centers and clinics are struggling to meet the demands of patients as they are understaffed. A quality [urgent care billing company](#) can be a blessing in disguise for you at these pandemic times.

Sunknowledge Services Inc has evolved over the years and is a trendsetter in the world of urgent care billing. The company is currently working with some of the largest vendors across the country. They have quite brilliant references with the largest urgent care center in New York being one of their

esteemed clients. Their robust presence, the superior team of urgent care billers, and coders have defined collections for their clients at these difficult times, helping them with what they do best!

One of the thought leaders of the organization rightly pointed out *“We are unique as we understand your present challenges with the labor shortage. At just \$7 per hour, we have transformed collections for the largest urgent care centers in the country. We take care of the front desk, eliminate any patient documentation errors and reduce your denials drastically. You can be assured of a reduction of your operational expenses by almost 70%.”*

Over the last decade or more, Sunknowledge Services Inc has become a powerhouse in healthcare revenue cycle management. But, it cannot be denied that their exceptional efforts especially during the last two years of this pandemic have made them a reliable partner for their urgent care clients. The company has ultimate standards with productivity, compliance, and versatility across multiple practice management systems. It will be interesting to see how they continue with their good run in the future!
