

The only cooking app you didn't know you needed, till now.

A one-stop application for all cooking enthusiasts.

Dubai, United Arab Emirates Jan 15, 2022 ([Issuewire.com](https://www.issuewire.com)) - The only cooking app you didn't know you needed, till now.

What do you get when you mix an entrepreneur, a marketer foodie, and a rising chef experienced in Michelin star restaurants?

A one-stop application for all cooking enthusiasts.

Karim Hobeich, Bassem Badreddine, and Chef Christiaan Stoop have united to create RCPE, the social network for cooks and professional chefs. The platform is designed to seamlessly allow all kinds and levels of cooks to share their recipe details, follow others for inspiration and conveniently search for their desired home-cooked meals through built-in filters and tags.

So how does it work?

After creating your free account, the first thing you'll see is your homepage. This is where you can start building your cooking community. Start following other cooks, explore their recipes, rate and save your favorites, and get inspired for your next meal!

You can filter your options to fit your liking, choose your cuisine and filter your search according to what's in your pantry. Feel like an eggless cake? No problem! Just filter your search to exclude eggs and you're good to go!

If you have your eye on a mouthwatering recipe but are lacking the ingredients, RCPE's got you covered! You can create a shopping list right on the app, RCPE is with you on your entire cooking journey—from the supermarket to your belly.

Finally (not really, we're just scratching the surface with RCPE's capabilities), you can schedule as many reminders as needed to start cooking your next meals!

To recap, whether you're a home cook, aspiring or professional chef, or maybe you just like to prepare a home-cooked meal every now and then, RCPE's your one-stop platform for meals catered to your taste buds.

Intrigued?

RCPE is available on [App Store](#) and [Play Store](#)!

Head over to RCPE's [website](#) to learn more and start discovering chefs and recipes from around the world.

You can also stay tuned for more updates and future announcements on RCPE's Instagram handle [@findrcpes](#).
