

The Songs from the EP 'Ugly' by POSTER KIDD are Pure Class Performances from this Young Artist

POSTER KIDD is quite courageous in his style of comprising music. In the latest EP 'Ugly' he stepped beyond the known territory of Alternative rock music.

Lake Village, Jan 21, 2022 ([Issuewire.com](https://www.issuewire.com)) - Alternative rock is a kind of genre that makes sense only when is composed and sensibly sung with the rawness of the voice. The artist **POSTER KIDD** has come up with his latest EP called '[Ugly](#)', and it has some real flavors of the genre. The artist with his voice and sense of music has been able to win the hearts of thousands of audiences. However,

this time, in his endeavor to bring something new for his fans, he has experimented with the songs extensively. It is also vividly conspicuous in his crafts that a sense of abstractionism works in him while molding his song. It feels like he wants to go natural and provide an authentic feeling of rock music to his listeners.

The two songs in the Ep are brilliantly composed. He seems to have left no stone unturned to make his audience impressed with the quality he has in music composition and songwriting. The title song 'Ugly' is essentially focusing on the real features of alt. Rock music. Drums and cymbals with the supportive play of the bass and electric guitar can create groovy and delightful music. Upon it, the voice of the artist and the lyrics of the song create magic.

Another song of the artist **POSTER KIDD**, '**Burn The World**' is yet another class performance from the artist within the contour of the genre. However, the quality he delivered in the song is in no way parallel to any of his contemporaries. Even it was seen earlier in '**Cocaine White (prod. P4RA x 5Head)**', '**Dead For Awhile**', '**Off The Hinge (prod.erlax)**' and some other tracks that he likes to step beyond the limited territory of rock music. His latest EP '**Ugly**' has so many features to deliver to rock music lovers. The song is successfully streaming on [SoundCloud](https://soundcloud.com/user-314653670/sets/ugly).
